Requirements for Statements, Letters, Invoices:

1. On the first page of the account, there is a 1/2" clear zone between the 2D and the address block which is vertically positioned even with the IMB barcode. This 2D barcode contains unique piece information that ties to a specific job file stored on the Vision database server.
2. This 2D barcode is located 2" from the top of the page for a #10 envelope job or 2 1/4" from the top of the page for a 6x9 1/2" envelope job. From the top of the IMB to the top of the 2D, it is 3/4".
3. On every page of the account, a 5/8" clear zone down the entire left side of the page is required. This is needed for the OMR and 2D barcode placement.
4. Located at the bottom left corner of the page, this is the 2D page sequence barcode which contains page order, eye-readable page and account counters, as well as the stock code number.
5. On every page of the account, the 4-digit stock code must be pre-printed on the bottom left corner of the page. It is located 1/4" from the left side of the page and 3/16" from the bottom of the page. The font to be used is 6pt OCR-B.
6. The 2D page sequence barcode is located 1/4" from the left side of the page and 3/8" from the bottom of the page.
7. The 2D barcode must be in the same location on all pages of the same job. This is a requirement for stock code matching.
8. If the 2D barcode interferes with an OCR Line, please omit. In this case, stock code matching will not be used.
